Old Business: Snow removal beside cemetery #1 with the sand buildup is an on-going problem. We will talk with George Morgan and keep in the attention of the Selectmen. Selectmen.

New Business:

- a) Tree work in #1 and #3 needed. Roblee Tree has assessed the job for cutting out dead limbs and birch. We add the thinning of the pines in #3 middle back-left behind Hill and Arnold plots. We move to go ahead as soon as possible and charge to the Cemetery Gen Main fund.
- b) We move to accept Kullgren's estimate for repairing the shed in #3 from the Cem Gen Maint Fund. The removal of some of the pine trees behind is considered.
- c) Warren Kiblin will do the needed pruning in #2 and #3.
- d) Taylor property was discussed. A letter to the Selectman will be drafted with our response considering cost, location, need and intention.
- e) The proposal for a handicap ramp at the OMH reviewed. Unanimous thinking is best on the right side of the building.
- f) Contract for the Grounds Keeping was signed in absentia.
- g) Nine burials scheduled for this Spring into summer:
 - Abe Philbrick, cr
 - Smith, cr, Burt Smith's plot, May 9th 11am
 - Jack Thomas, full, behind Swenson in No

Respectfully submitted,
