

Cemetery Commission
June 6th, 2012

Present: Ethel MacStubbs, Polly Freese
Member of the Public : Tom Anderson

Meeting called to order at 8:30AM

A discussion of Robblee Tree Services estimate on removal of 2 trees in Cemetery #1, and the large branch and a poplar tree in Cemetery 3#. MacStubbs urged the use of volunteer labor to remove the branch. After some discussion about volunteer labor vs. Professional services, a vote was taken.

The vote was one for and one against using a tree service. Betsy Wiederhold, who could not be present, was called by the Chair and she also voted for professional service to be used. Freese will contact Robblee with an okay to do the work.

MacStubbs has had an inquiry about reclaiming a lot which would be sold to a party having a request for said lot. It is difficult to go thru the steps for reclaiming, as the person noted the card, has no address, nor do we know when the lot was bought. MacStubbs will contact Terry Knowles and/or Dick Adair who might give us direction, before we put an ad in the newspaper, which is step IV, in the handbook. MacStubbs also has done a thorough investigation on the costs and steps of a disinterment from another state, to be buried in this lot.

Having no further business, the meeting was adjourned at 9:45AM

Respectfully submitted

Polly S. Freese
